BULL & BEAR MARKET

# RETURNS THAT GROW WITH THE MARKET

Your returns are not fixed, rather they have infinite potential for growth. When the market is a bull market that is on the rise, your returns will grow at rapid rate.

On the other hand, in a bear market i.e. in a declining market, the returns may experience some slowdown.

Therefore in an economy experiencing a surge, you won't have to be satisfied with limited returns.

# WHERE WALLS MAKE ROOM FOR FREE MOVEMENT

At Grandthum, the essence of design is fluidity, that is allowing movement that breaks barriers and helps create interaction and a sense of community.

It reflects in every aspect of our design, like on-grade parking decks that can be accessed via ingenious, undulating ring road system that eliminates the need for ramp systems, thereby giving equal access to both retail levels; or natural light and connectivity between the two levels, which make them part of one whole ecosystem.

By not surrounding the building with parking, connectivity to the rest of the Grandthum precinct is ensured.
